CGS International Graduate Admissions Survey: Final Applications, Admissions, and Enrollment

SURVEY INSTRUCTIONS AND DEFINITIONS

ABOUT THE SURVEY

The *2016 CGS International Graduate Admissions Survey: Final Applications, Admissions, and Enrollment* is being sent to all U.S. colleges and universities that are members of the Council of Graduate Schools (CGS) or one of the four regional graduate school associations: the Conference of Southern Graduate Schools (CSGS), the Midwestern Association of Graduate Schools (MAGS), the Northeastern Association of Graduate Schools (NAGS), and the Western Association of Graduate Schools (WAGS) as of January 2016. The survey asks institutions to report the preliminary number of applications received from prospective non-U.S. citizen (temporary resident) graduate students (also referred to as “international graduate students”) for Fall 2016. The *International Graduate Admissions Survey* has been conducted annually by CGS since 2004. Survey reports are available at www.cgsnet.org.

SURVEY INSTRUCTIONS

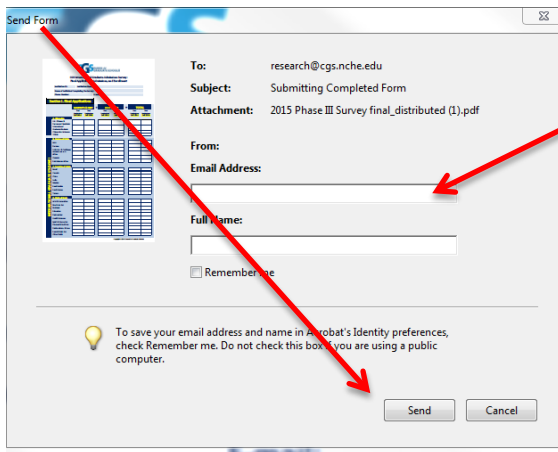

- The survey is designed to capture data on final applications, offers of admission, first-time enrollment, and total enrollment for all international graduate students at your institution by six regions of origin, ten countries of origin, and eleven fields of study. The questionnaire includes four components, each on a separate page: Final Applications (Section I), Offers of Admission (Section II), First-time Graduate Enrollment (Section III), and Total Graduate Enrollment (Section IV). Each component page includes columns for master’s/certificate data, doctorate data, and total data. The total column will be automatically populated based on the data you provide in the master’s/certificate and doctorate columns.
- Please provide data for **ALL** prospective international graduate students applying for admission to graduate certificate, master’s degree, education specialist, and doctoral degree programs offered by **ALL** divisions, schools, colleges, or departments of your institution, including professional schools (e.g., medical school, law school, journalism school, etc.), as well as offers of admission, first-time enrollment, and total enrollment of ALL international graduate students in those degree programs. Each institution should submit one survey combining the data from all divisions, schools, colleges, and/or departments.
- Please enter a “0” (zero) in fields when no applications from prospective international graduate students have been received. If your institution does not offer programs in a certain field of study and/or degree level, please enter an “N/A.” When data are not available, please enter an “X.” **Please DO NOT leave any blank space in your forms.**
- **Submission due date: Survey responses must be received by COB Monday, October 31, 2016.**

- Click on the link provided in the email in order to access the survey. Once you click on the link, you must take the following steps **BEFORE YOU BEGIN** entering data (if you do not take the following steps, your responses will not be saved):
 1. Download and save the survey to your computer;
 2. Open the new saved copy with [Adobe Reader](#) (Do not open the survey from your web browser; open it from the saved file in order to ensure you data will be saved); and
 3. Enter the data.

After filling in all fields, please click the “Submit Form” button located in the upper right-hand corner of the document window.

A new window will appear in Adobe titled “Send Form.” Enter your email address and your name. Click the “send” button in the bottom right-hand corner of the dialogue box.

Once the form is sent, you will receive email verification from CGS that your completed survey was successfully submitted. If you do not receive this email confirmation, please contact [CGS Research](#). If you are unable to submit using the “Submit Form” button, please send completed surveys as an attachment to [CGS Research](#).

- **Note to Mac users:** You MUST use Adobe Reader. **Mac users will NOT be able to submit this form through the “Preview” function.** To open the form with Adobe Reader, install Adobe Reader (<http://get.adobe.com/reader/>), launch Adobe Reader, go to File-> Open and select the PDF form.
- **Questions?** Contact [K. Stone](#), Program Manager

DEFINITIONS

This survey collects data on the number of completed applications for admission, offers of admission, first-time enrollment, and total enrollment for Fall 2016 in graduate certificate, master's degree, education specialist, and doctoral degree programs offered at accredited institutions of higher education in the United States. This survey excludes international students who apply to or enroll in U.S.-based institutions not located in the United States (e.g., international branch campuses), as well as those who apply to or enroll in online courses from countries other than the United States. For the purpose of this survey, the following definitions apply:

- **Applications:** Report the number of completed applications for admission to U.S. graduate schools that fulfill the institution's requirements to be considered for admission in the Fall term, including payment or waiving of the application fee, if any. Applications data exclude individuals who applied as transfers or for readmission at the same institution. Note that this survey collects data on applications, not applicants. For example, if a student applied to two graduate programs, both applications should be counted and included in the survey data.
- **Offers of Admission:** Report the number of offers of admission granted by U.S. graduate schools to international students.
- **First-time Enrollment:** Report the number of incoming students who are enrolled for the first time in a given program at a given institution to which they submitted an application. International students pursuing a research doctorate after already earning a master's degree are considered first-time students, so long as they submitted their application for admission to the doctoral program. Students who do not submit an application to the doctoral program (i.e., a master's degree was earned *en route* to the doctoral degree) should not be considered a first-time graduate student.
- **Total Enrollment:** Report first-time international enrollment PLUS continuing international students. The figure you report for total enrollment should be greater than the figure you report for first-time enrollment.
- **Non-U.S. Citizens (Temporary Residents):** Include those who are in the United States on a student visa, or on a temporary basis, and do not have the legal right to remain indefinitely. Undocumented students (i.e., students born abroad who are not U.S. citizens or legal residents) are not considered as "temporary residents" for the purpose of this survey.
- **U.S. Citizens & Permanent Residents:** Include those who are U.S. citizens, including individuals who were born in Puerto Rico, Guam, and the U.S. Virgin Islands; U.S. nationals, including those who were born in the American Samoa or the Commonwealth of the Northern Mariana Islands; and permanent residents holding green cards. Individuals who hold dual or multiple citizenship, one of which being the United States, should also be reported in this field.
- **Citizenship unknown:** Include those individuals whose citizenship is either unknown or unreported.
- **Master's & Certificate:** Include all graduate certificate programs, including post-baccalaureate and post-master's certificate or other graduate programs (e.g., Ed.S.). Graduate certificates are awards that require the completion of an organized program of study equivalent to 15 to 18 credit hours beyond the bachelor's degree. At the master's level, include all master of science (M.S.) and master of arts (M.A.) programs, as well as other master's programs in areas such as business (e.g., M.B.A.), fine arts (e.g., M.F.A.), health sciences (e.g., M.P.H.), public administration (e.g., M.P.A.), public policy (e.g., M.P.P.), social work (e.g., M.S.W.), and other master's programs.
- **Doctorate:** Only report **research doctoral programs**. Research degrees include: Doctor of Philosophy (Ph.D.), Doctor of Education (Ed.D.), Doctor of Science (D.Sc.), Doctor of Musical Arts (D.M.A.), and other degrees included in [National Science Foundation's Survey of Earned Doctorates](#). Also report the number of completed applications from individuals who applied to research doctoral programs where a master's degree is earned *en route* to the doctoral degree.

- **DATA TO EXCLUDE:** Do not include data reflecting: (1) individuals who applied as transfers or for readmission at the same institution; (2) non-degree seeking students or those who are visiting or exchange scholars; or (3) numbers from undergraduate-level or doctoral degrees that are **not** research degrees, such as M.D., J.D., Pharm.D., and Psy.D.
- **Field of Study:** Report the number of completed applications, offers of admission, first-time enrollment, and total enrollment of non-U.S. citizens (temporary residents) by field of study. The total of the numbers provided for the 11 fields of study **should** equal the totals provided in the “Non-U.S. Citizens (temporary residents)” fields. The survey taxonomy and two CIP crosswalks, both of which are included at the conclusion of this document, are based on those used for the *CGS/GRE Survey of Graduate Enrollment and Degrees*.

	MASTER'S & CERTIFICATE	DOCTORATE	TOTAL

Social & Behavioral Sciences	N/A	7	7
Other Fields	2	5	7

The total of the numbers provided for the 11 fields of study **should** equal the totals provided in the “Non-U.S. Citizens (temporary residents)” fields.

- **Regions/Selected Countries of Origin:** Report the number of completed applications, offers of admission, first-time enrollment, and total enrollment of non-U.S. citizens (temporary residents) by regions and select countries of origin. The figures reported for the seven regions of origin **should** equal the totals reported in “Non-U.S. Citizens (temporary residents)” fields. Individuals who hold dual or multiple citizenship, one of which is U.S., should be reported in only one region of origin and only one country of origin. These categories are intended to capture data by citizenship, not residence. For instance, a South Korean citizen who has been living in Canada and has applied to a graduate program at a U.S. institution should be recorded as non-U.S. citizen from South Korea, not Canada.

CONFIDENTIALITY

All data and information submitted for the *CGS International Graduate Admissions Survey* will be treated as confidential and will only be used for research or statistical purposes by CGS. Any information released publicly will be in a format that does not allow the identification of institutions or prospective students. All survey data are stored on a secure, password-protected server, and access to the raw survey data is restricted to those individuals directly involved in the data collection and analysis. Participation in the *CGS International Graduate Admissions Survey* is voluntary.
