Guiding questions for crisis communication plan

- What do I want to communicate? Content and messages? Appropriate wording of messages?
- To whom do I need to communicate? To whom do I want to communicate? Who are the constituencies and audiences for the messages?
- Which media are best for which message and audience(s)? How to connect across platforms?
- When to communicate? How often to communicate? How much to communicate?
- How to coordinate with official University communication strategy? When and what not to communicate?
Guiding questions for crisis communication plan

- What do I want to communicate? Content and messages? Appropriate wording of messages?
  - information and updates
  - directions and instructions
  - general message of caution, urgency, alert
  - general message regarding personal reaction - calm
  - wording is important - “murder” in GLC, women should take caution
  - and more
Guiding questions for crisis communication plan

- To whom do I need to communicate? To whom do I want to communicate? Who are the constituencies and audiences for the messages?
- All graduate students? location specific - on campus and off campus students?
- GTAs? GRAs?
- Cultural groupings of graduate students
- Graduate program directors, departments, faculty?
- Public and community; families
- Graduate School staff
- and more
Guiding questions for crisis communication plan

• Which media are best for which message and audience(s)? How to connect across platforms?

• social media platforms (text messages, twitter, facebook, etc.) for audiences
• similar message across platforms
• timing of messages
• resources and availability
Guiding questions for crisis communication plan

- When to communicate? How often to communicate? How much to communicate?
- Timing of messages? Immediately? After University response?
- Information updates?
- Further instructions?
- Resolution and next steps
- Enough information but perhaps not all info
- More
Guiding questions for crisis communication plan

- How to coordinate with official University communication strategy? When and what not to communicate?
- take lead from official University; simultaneous, complimentary and sequential messaging
- appoint liaison and develop communication strategy
- avoid conflicting statements or messages
- design message for graduate education audiences
Examples of media

- Email notification
- Text and phone messages
- Twitter
- Facebook
- Website

Thriving in Graduate School

Thriving has not been the typical term used to describe the graduate education experience; rather "surviving" has been the term associated with earning a graduate degree. But now it is time to question this existing paradigm and move from surviving to thriving through the implementation of affirming, and yet still challenging, environments for advanced learning and research. High expectations and quality standards can be and should be maintained but the academic bullying (subtle or overt) and questionable professional behaviors must be eliminated.

THRIVING, NOT JUST SURVIVING, IN GRADUATE SCHOOL
